

JANUARY 22, 1973 - JANUARY 22, 2021

THE TRAGEDY OF 48 YEARS OF LEGAL ABORTION IN AMERICA

"We, the following citizens pledge our support for all women and their families as they consider options other than abortion. We stand opposed to our nation's 'culture of death' which has claimed over 62 million unborn children through abortion and has left millions of mothers, fathers, and families suffering physical and psychological pain due to their 'choice.'

We support real rights for women... a right to know all the risks involved in abortion, the right to be given accurate fetal development information, and the right to be offered true choices and alternatives. We also support those organizations that treat the mother and child with the love and respect they both deserve."

If you, or someone you know is experiencing an unplanned pregnancy please call 1-800-712-HELP (4357)

Over half of abortions in America are unwanted or coerced, and many are forced, followed by serious after-effects, ranging from physical injury and post-traumatic stress, to death of the mother.

WHAT IS COERCION?

Coercion is common and illegal, yet seldom reported or discussed. It can take direct or indirect forms. It may involve conflicts of interest from sales-driven clinics, agenda-biased providers, and other influential or powerful stakeholders. It may include deceptive information or counseling from those in authority or even some within the helping professions. It may involve pressure, manipulation or force from friends, family or authority figures, such as parents, partners, school counselors, employers or healthcare professionals.

Forcing women to abort can have significant legal ramifications, even under current lax laws. Unwanted abortions are an internationally recognized human rights abuse.

Coercion can involve personal blackmail or even violence from families or partners. It can involve exploitation by employers; school, social services or pastoral counselors; or trusted medical advisors. It may happen when individuals or couples already under pressure seek answers, referrals or a helping hand from experts in the helping professions. Coercion can escalate to violence or even homicide -- the #1 killer of pregnant women.

INJURY, HEARTBREAK, AND DEATHS AFTER ABORTION...

After abortion, women suffer trauma, physical injury and nearly 4 times higher maternal death rates, including but not limited to higher suicide rates. Teen post-abortion suicide is significant, too. Unwanted abortions, heartbreak and serious, even deadly after-effects are not about "choice" in the true sense of the word. These and other risks are well documented, yet seldom reported.

What will a Biden-Harris presidency do for the pro-life effort?

President-Elect Joe Biden has promised he will:

- Enshrine abortion on demand in federal law
- Appoint justices who will uphold abortion on demand
- Reverse the Trump Administration's pro-life policies
- Reverse President Trump's Title X rule that prevents pro-abortion groups from promoting or referring for abortions
- Promote abortion around the world by reversing the Protecting Life in Global Health Assistance program which prevents federal taxpayer dollars from being used by abortion groups to perform or promote abortion overseas
- Abolish the Hyde Amendment which prevents federal tax dollars from being used to pay for abortions except in cases of rape, incest, or to save the life of the mother

Vice-President-Elect Kamala Harris's positions on abortion:

- Supports a policy of abortion on demand, which allows abortion for any reason
- Co-sponsor of S. 1645, a bill that, if enacted, would invalidate nearly all state and federal limitations on abortion
- Voted against legislation that would protect unborn children from abortion after 20 weeks when the unborn child can feel pain
- Voted against the Born-Alive Abortion Survivors Protection act
- Supports the use of our tax dollars for abortion and taxpayer funding of abortion providers
