Keynote Speaker: George Dennehy

George Dennehy is capturing attention all over the world for his unique talents. Born without arms, he plays music from his heart using his feet.

George's life story began with his early struggle against death in a grim Romanian orphanage and the dire circumstances that led to an urgent plea for a family to quickly consider adopting him. That adoption happened when George was eighteen months old.

George started his musical journey early in life by learning to play the cello at the age of eight. His testimony of a victorious, overcoming life has inspired thousands of people all over the world. He has released a CD of original music titled 'Have My Heart'. George's personal videos about music and overcoming daily challenges have been viewed over five million times.

Today, George travels the world full-time and loves sharing his story and his music. He lives in Virginia with his wife, Amanda, and two sons, Landon and Alaster.
