
2026 NETWORKING DAY LUNCH SPEAKER

*Right to Life of North Central Indiana is excited to introduce
Brittany Hunt as the Networking Day Lunch Speaker!*

Brittany Hunt, BSN, RN, is the Director of Reproductive Grief Care at Care Net Pregnancy Medical Center in Tennessee, where she serves families experiencing perinatal loss and those navigating a prenatal diagnosis.

Brittany's passion for this work is deeply personal. During her pregnancy with her first child, she received the news that her daughter had a life-limiting diagnosis. The precious time she shared with Charis Ann profoundly shaped her life, changed the course of her professional career, and ultimately led her to serve other families walking similar journeys.

Today, Brittany combines her nursing background, specialized training, and lived experience to provide trauma-informed, research-based, parent-centered care from diagnosis through delivery and beyond. She is passionate about compassionately entering some of life's hardest places and ensuring that families receive the comprehensive, life-affirming support they need so no one facing a prenatal diagnosis has to walk alone.

Brittany is the proud mother of two daughters: Charis Ann, who is with the Lord, and five-year-old Joy, who loves creating special gifts for the children of the families Brittany has the privilege of serving.

Brittany's Life Scripture:

"My grace is sufficient for you..." 2 Corinthians 12:9
